

## MEMORIALS IN PARKS POLICY

---

The City offers two options for families who would like to fund a memorial for a family member who lived in Eden Prairie.

1. They can pay for the acquisition and installation of a park bench within a park of their choice. The City will work with the family on the location of the park bench. The park bench will have a brass plaque installed on the back of the bench indicating the bench was donated to the City in memory of the person listed on the plaque.
2. The other option is the City will plant a tree in memory of the person; however, the City does not place a marker on or near the tree. The family is simply aware that that tree was planted in memory of their loved one.
