How would you rate the condition of streets in Eden Prairie as a whole?

- A** Excellent (no repairs needed) **B** Good (minor repairs such as crack-filling needed) **C** Fair (major repairs, such as potholes, needed in a few areas)
D Poor (in shambles with major repairs in multiple areas necessary)

- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 The worst road in Eden Prairie is the private road Joiner Way. That is ridiculous and the City should be enforcing some standards on it.
- Anonymous user's Opinion** Responded **C** Good (minor repairs such as crack-filling needed)
 Baker Rd can get busy at times and difficult to cross or enter. For safety reasons can Baker be reduced to 2 lanes with center turn lanes and right hand turn lanes.? Thank you for your consideration.
- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 We recently moved from one side of town to another. Previously I would have said that the roads are in great shape with only cracks needed filling. Now that I've moved, I've noticed the street that I live on, as well as surrounding streets, are in pretty rough shape. Our street alone has MANY potholes and uneven surfaces, but I think Duck Lake Road is the worst.
- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 The streets in the NW portion of EP need attention. Please do not put that pea-rock down again this year and instead try repaving.
- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 Cumberland road from Mitchell to Sycamore Ct is terrible!!
- Anonymous user's Opinion** Responded **A** Poor (in shambles with major repairs in multiple areas necessary)
 Flying cloud drive needs a lot of updates, Mitchell road for the right hand lane to turn on 212 needs to be fixed, and Chestnut drive in between Anderson lakes parkway and Carmody Drive needs to be repaired. There are a lot of roads which need repairs.
- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 Anderson Lakes Parkway near Jerry's and the new Starbucks is riddled with potholes. It is dangerous for fast moving vehicles.
- Anonymous user's Opinion** Responded **C** Good (minor repairs such as crack-filling needed)
 Roads are in good shape. I do feel like the number of street lights are lacking in some residential, which creates safety costs concerns for pedestrians.
- Anonymous user's Opinion** Responded **C** Good (minor repairs such as crack-filling needed)
 Technology Drive could use some patrol monitoring to reduce speeders. At all hours of day. That area is heavily traveled with pedestrians, bikers, dog walkers and such. Enforcement is needed.
- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 Roads are mostly good, but there are some places where you can literally damage your suspension by driving into a large pothole. An example is an intersection of Flying Cloud Drive and Technology Drive. <https://goo.gl/maps/VeWk1guM35CqEFAa6>
- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 An additional nudge about Joiner Way near the Shopping Center; I know there are big signs saying it's not a city road, but its condition is absolutely ridiculous.
- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 It seems like we are running behind keeping our streets in good repair. It didn't used to be this way.
- Anonymous user's Opinion** Responded **C** Good (minor repairs such as crack-filling needed)
 A tree at the corner of Heritage road and Kerber needs to be trimmed as it is dangerous to seeing other cars.
- Anonymous user's Opinion** Responded **C** Good (minor repairs such as crack-filling needed)
 On Mitchell Road, between Hwy 5/212 and south to Flying Cloud Drive as well as Columbine Rd(the street east of Boulder a Pointe Rd, on the east side of Mitchell Rd), both are in great need of being resurfaced or being rebuilt. THANK YOU!
- Anonymous user's Opinion** Responded **C** Good (minor repairs such as crack-filling needed)
 It's not the streets it's the lack of an overall plan for a downtown area ! We should be doing what Maple Grove, St Louis Park and now Edina is doing...
- Anonymous user's Opinion** Responded **C** Good (minor repairs such as crack-filling needed)
 I am hoping the city can work with MnDOT to address the backups daily along SB US 169 between 494 and the Minnesota River. I saw that Bloomington privately funded a new bridge from East Bush Lake Rd onto 494 so why not have Eden Prairie join Bloomington to fund an exit only express lane for Anderson Lakes, Pioneer, and Old Shakopee (which is walled off from the highway to avoid the last minute cutover traffic) for its residents to avoid the Shakopee/Savage residents who clog up the highway each afternoon. If MnDOT can't figure out a solution for the whole highway it seems like we could make things easier for the people not traveling as far. We have an exit only lane for the first exit and plenty of space for buses on the shoulder now so why not find a way to wall off the local exits from the traffic heading further south.
- Anonymous user's Opinion** Responded **B** Fair (major repairs, such as potholes, needed in a few areas)
 Most roads are fairly well maintained considering the conditions. Flying Cloud Drive, and I know it is a County Road, is in horrible condition. Chunks of pavement have been flying up ever since the winter

ended. Cumberland Road by Mitchell Road is terrible as well.

Anonymous user's Opinion

City does a great job maintain streets!

Responded **C** Good (minor repairs such as crack-filling needed)

Anonymous user's Opinion

I'd like to see a flyover system at the intersection of Hwy 4 and 5. Getting to / from events at HS/ CC / Round Lake is very frustrating.

Responded **C** Good (minor repairs such as crack-filling needed)
