email
-  **Anonymous user's Opinion**
Email!
-  **Anonymous user's Opinion**
Emails with important information
-  **Anonymous user's Opinion**
Email
-  **Anonymous user's Opinion**
I feel it is essential that we have more and better delivery options in eden prairie for groceries, alcohol, etc. The delivery services I have been using are lacking in accuracy and timeliness or aren't available at all (EP Liquor)

**Anonymous user's Opinion**

Email or text messaging.

**Anonymous user's Opinion**

national newspapers also i.e. NYT, Washington Post...and completely avoid channel 9 fox and friends.

**Anonymous user's Opinion**

Local station Apps.

**Anonymous user's Opinion**

Nextdoor.com + eMail

**Anonymous user's Opinion**

Emails from city

**Anonymous user's Opinion**

Local news sites

**Anonymous user's Opinion**

I like getting emails.

**Anonymous user's Opinion**

Internet news sites. I check youtube.com for presidential daily updates. Have some trouble finding governor updates.

**Anonymous user's Opinion**

Email, text, phone

**Anonymous user's Opinion**

Local TV/radio Websites

**Anonymous user's Opinion**

city communication by phone with recorded VM and by text

**Anonymous user's Opinion**

Direct emails

**Anonymous user's Opinion**

MPR News

**Anonymous user's Opinion**

Person to person

**Anonymous user's Opinion**

Updates from city, texts or emails

**Anonymous user's Opinion**

My work

**Anonymous user's Opinion**

I do an internet search and will typically choose local (Twin Cities) news websites. Also dependent on email from local and state government. These seem different to me than choices listed above.

**Anonymous user's Opinion**

Internet: National news, CDC

**Anonymous user's Opinion**

MPR

**Anonymous user's Opinion**

Snail mail

**Anonymous user's Opinion**

MDH and CDC as well. All the news outlets are sketchy--they are just selling clicks and so the stories are not as honest as they need to be.

-  **Anonymous user's Opinion**
Wish the community center was open and allow the use of the pools to so many at a time. Would have to sign up the day before to allow so many in st a time
-  **Anonymous user's Opinion**
Work
-  **Anonymous user's Opinion**
Getting a text message from the city for major important updates would be great.
-  **Anonymous user's Opinion**
Communication to leasing office to communicate to residents. Also, text or email to Cory residents.
-  **Anonymous user's Opinion**
Consider texting people who have subscribed
-  **Anonymous user's Opinion**
I'd prefer direct messages from the city to my phone on brief updates rather than get anything from anyone else. My community is my home. I'd like to hear from how my community is clarifying information and leading rather than relying on other outlets to help keep our community strong and united.
-  **Anonymous user's Opinion**
National news stations such as CNN
-  **Anonymous user's Opinion**
Direct email notice to those signed up to receive city news.
-  **Anonymous user's Opinion**
Texts from an official govt./state account (with the assurance that # will not be sold to a 3rd party)
-  **Anonymous user's Opinion**
E-mails from city of Eden Prairie
-  **Juan Salvador Canales's Opinion**
City Centers web pages, news.
-  **Anonymous user's Opinion**
Family
-  **Anonymous user's Opinion**
If critical, i believe a resident alert should be sent.
-  **Anonymous user's Opinion**
direct email
-  **Anonymous user's Opinion**
Email from the city
-  **Anonymous user's Opinion**
City outreach to all Nextdoor or similar social media neighborhood platforms
-  **Anonymous user's Opinion**
text messages and email from the city of Eden Prairie
-  **Anonymous user's Opinion**
Local government texts pointing to local gov't sites.
-  **Anonymous user's Opinion**
scientific research sources
-  **Anonymous user's Opinion**
What does "critical" mean? Time sensitive? Emergency? or just important?
-  **Anonymous user's Opinion**
It would be good if updates to our city were sent to everyone via text or email - ex. is closing of playground equipment and if in the future some trails or paths need to be closed because of overuse/not having enough distance. Please check on recommended use of masks now.

What kind of information would help your household the most in preparing for COVID-19?

Anonymous user's Opinion

It would be helpful to know how many positive cases there are in our city.

Anonymous user's Opinion

We're okay.

Anonymous user's Opinion

Stores that will be open and length

Anonymous user's Opinion

What are the plans and when will they change

Anonymous user's Opinion

current updates

Anonymous user's Opinion

CALM information - STOP cancelling things so far out in advance, lets take this day by day. Right now the death rate is 1.2%.

Anonymous user's Opinion

How many have tested positive. What each household needs to do. What each household really needs to have on hand.

Anonymous user's Opinion

How many cases are in Eden Prairie.

Anonymous user's Opinion

Availability of essential services. Up to date medical knowledge.

Anonymous user's Opinion

Best practices and accommodations

Anonymous user's Opinion

FACTS.

Anonymous user's Opinion

Knowing what business are open and their hours. Knowing where to go to get tested.

Anonymous user's Opinion

Trusted, realistic knowledge on what the future may hold based on other states/countries history. How long do we prepare to 'stay in place'?

Anonymous user's Opinion

Knowing the resources that are available for maintaining our household, retailers that are open and what hours, mass transit information.

Anonymous user's Opinion

information about lock down, medical facility, what to do

Anonymous user's Opinion

Restrictions, What is open, Make efficient use of time, healthy meal ideas

Anonymous user's Opinion

I think we have the info we need. I do think it would be helpful if people knew whether or not we should expect food shortages, and what to expect or do as far as needing COVID test.

Anonymous user's Opinion

food access; latest health news

Anonymous user's Opinion

Public Service Announcement and Discussions on Comcast Cable Public Access Channels. Topics: Handwashing, handling mail, delivery of packages and behavior in grocery stores.

**Anonymous user's Opinion**

Knowing of infected people in the neighborhood

**Anonymous user's Opinion**

Percentage of infected as it relates to population. MN is at .0001%.

**Anonymous user's Opinion**

Telling us where & when supplies for protection are available.

**Anonymous user's Opinion**

Any information that will not create unnecessary panic.

**Anonymous user's Opinion**

How many cases are in Eden Prairie

**Anonymous user's Opinion**

To know how many cases are in my immediate community and to know what public places may have been effected.

**Anonymous user's Opinion**

in one place: a list of city businesses that are closed. A list of city buildings and programs that are closed.

**Anonymous user's Opinion**

Availability of texting. Who has tests?

**Anonymous user's Opinion**

What is relevant to our city, what information there is about what actions we should take, what is open/closed, what we can do to help. National and state news are great, but also need to know what's going on right here at home.

**Anonymous user's Opinion**

Symptom updates; state and local policy updates

**Anonymous user's Opinion**

not sure

**Anonymous user's Opinion**

Which stores are being restocked and what days they get deliveries

**Anonymous user's Opinion**

Knowing our organizational direction. How is the city handling things? How are people doing? Are the policies working?

**Anonymous user's Opinion**

Services still available, links to vendors for food / delivery like gru. Hub; restaurants that have take out

**Anonymous user's Opinion**

When things will shut down...number of cases in our city

**Anonymous user's Opinion**

Advance warning of more rigid orders, e.g., shelter-in-place

**Anonymous user's Opinion**

I feel as we are getting all of the information that we need.

**Anonymous user's Opinion**

Constant reminders for social distances. Somewhere to see postings of closed businesses

**Anonymous user's Opinion**

Accurate, Timely information

**Anonymous user's Opinion**

More information concerning outbreaks by city and county. I know how many positives in Hennepin county, I do not know what the positives in Eden Prairie

**Anonymous user's Opinion**

A centralized place to access information about closures

Anonymous user's Opinion

 Clear information on the open and closing of community resources especially for essentials; clear information on emergency services and responses; how to help our neighbors and community cope; and who to contact for more information.

Anonymous user's Opinion

 Information on how the disease is spreading, how many people are impacted, continued knowledge on symptoms & when to seek care (or where to seek it.) Spreading facts not fear! Updates on where to find key resources while maintaining social distancing. For example, what store have things like meat, eggs, fruit, milk, toilet paper, etc in stock when the need absolutely arises to restock. Or delivery options from local stores. What restaurants are open for curbside pickup would also be helpful.

Anonymous user's Opinion

 Prep for a lock down, where to go to get help in different situations, how to engage in any efforts to help out in any capacity.

Anonymous user's Opinion

 How are we going to stay sane? This is almost unbearable.

Anonymous user's Opinion

 What's open/closed. How to stay safe. Gov. actions. How to get help or help others.

Anonymous user's Opinion

 The location of those who test positive for COVID-19; where I can purchase necessary paper goods, especially toilet paper.

Anonymous user's Opinion

 Consistently Share How we each can do our part to be a part of the solution and getting through this together

Anonymous user's Opinion

 Updates about the presence and status of COVID in the community- how many confirmed cases, where infected persons may have visited in the last 10+ days, etc.

Anonymous user's Opinion

 How local businesses and services are impacted.

Anonymous user's Opinion

 Store hours, estimated durations for quarantines (which I know you don't have)

Anonymous user's Opinion

 Level of testing being done within our immediate community. Number of active COVID-19 cases in our community.

Anonymous user's Opinion

 Latest updates about health and policy

Anonymous user's Opinion

 emergency services

Anonymous user's Opinion

 When crisis will end

Anonymous user's Opinion

 Keeping childcare available.

Anonymous user's Opinion

 local restrictions, recommendations

Anonymous user's Opinion

 Consistent information across all government agencies, based on best scientific and medical expertise.

Anonymous user's Opinion

 How to recover at home if you get it.

Anonymous user's Opinion

 Where can we find resources within our community: food, nonfood, cleaners, etc.

Anonymous user's Opinion

 School schedules

Anonymous user's Opinion

 More localized information about confirmed case distribution. 111 cases in Hennepin county - how many are localized in Eden Prairie?

**Anonymous user's Opinion**

Ways to protect yourself

**Anonymous user's Opinion**

If there is any changes with the quarantine

**Anonymous user's Opinion**

Increased options for food and supplies delivery. Have attempted to get delivery (whole foods) only to find all time slots were booked.

**Anonymous user's Opinion**

Where to get supplies that are hard to get

**Anonymous user's Opinion**

Just keeping up to date on the spread and all the closures etc.

**Anonymous user's Opinion**

What's happening in the city, county, state.

**Anonymous user's Opinion**

If stores were opened back up.

**Anonymous user's Opinion**

groceries supply and other essential household needs are met and shared on this platform without us having to scout the retail locations in our community

**Anonymous user's Opinion**

I dont think the number of cases information is very helpful since testing is so limited. I'd really like to understand what the situation is a local hospitals. Are they currently keeping up, way behind, completely overwhelmed? If we should have an immediate need for medical help, what is the current response for non-COVID 19 and for COVID 19

**Anonymous user's Opinion**

How to prepare for the virus. What to do if you have it

**Anonymous user's Opinion**

Where can I buy toilet paper? Truly, if you could tell us where critical supplies are still available, that would be most helpful. Also, had trouble finding milk yesterday too.

**Anonymous user's Opinion**

Timely news about closures and updates on cases in our city.

**Anonymous user's Opinion**

What do we do if we fall really sick? We hear about lack of tests and hospital beds. We don't really know what we can do.

**Anonymous user's Opinion**

How to best prevent it, cope with it and how it can be spread.

**Anonymous user's Opinion**

Advanced warning of things shutting down - more than 24 hours so there isn't a mad rush at the stores to buy things causing people to be crowded together.

**Anonymous user's Opinion**

what's open. what's not

**Anonymous user's Opinion**

What the city is doing to prevent the spread, specifically the continued use of playgrounds, etc.

**Anonymous user's Opinion**

List of sources for grocery delivery.

**Anonymous user's Opinion**

Local businesses that are taking delivery / pick up orders so we can support them.

**Anonymous user's Opinion**

Status of Food inventory at local grocery. The unknown of this is what is most unsettling. It creates panic. If residents could just be notified that food won't run out or inventory is ok it won't be so frightening.

**Anonymous user's Opinion**

Communication via text. General health recommendations, increases in cases in our area, store closings, etc.

**Anonymous user's Opinion**

available resources and opportunities to help neighbors

**Anonymous user's Opinion**

More information about what will happen at the high school and how many confirmed cases in EP.

Anonymous user's Opinion

More accurate information on grocery store procedures (which days new shipments come in, etc); more communication from the school regarding what distance learning will entail; better details regarding community spread - and for our city to PLEASE CLOSE PLAYGROUNDS AND REC AREAS! Community members on social media are reporting that personnel from Parks & Rec were seen putting up tennis nets when nearly everything we're reading and nearly all of the people on the EP social media pages agree to REMOVE things like tennis nets and playground swings! Our city needs to DISCOURAGE people from using shared equipment, not ENCOURAGE.

**Anonymous user's Opinion**

Clear and timely communication.

**Anonymous user's Opinion**

Availability of coveted items such as hand sanitizer, cleaning disinfectants and toilet tissue in the stores

**Anonymous user's Opinion**

Factual updates on what we are doing locally to help prevent spread of the virus, what our local medical care systems are looking like and how prepared they are, what businesses remain open and hours of operation, etc.

**Anonymous user's Opinion**

What are the latest restrictions and info on cases in our town

**Anonymous user's Opinion**

Better understanding of expectations for residents in terms of what is ok and not as well as estimated timing of actions to be taken or when we will return to normal

**Anonymous user's Opinion**

A page that we could go to that lists all the open businesses with hours and delivery/pickup options

**Anonymous user's Opinion**

1. Solid health and scientific information. 2. As with 1 above, correcting the misinformation flowing from Washington D.C. 3. Info on availability of necessities. What's open and when and what restrictions may exist.

**Anonymous user's Opinion**

Having a comprehensive list of Eden Prairie grocery store and pharmacy hours (including hours reserved for high risk). Knowing if someone working in one of these places tests positive for COVID-19. We are staying home and going out for groceries every two weeks. We do not want to do this forever and would love for strong encouragement to all residents to stay home when possible. Also a clear list of essential services remaining open is useful.

**Anonymous user's Opinion**

When and where we can eventually get a test for COVID-19.

**Anonymous user's Opinion**

Tips for securing food

**Anonymous user's Opinion**

Business closures. Statistics on cases, location. Recommended options to avoid it or treat it.

**Anonymous user's Opinion**

Plans for essential household supplies and food shortages, if they arise

**Anonymous user's Opinion**

If there was a way to give an update about cases in the local community would be helpful. Hennepin county is quite large but city case knowledge would also be helpful information.

**Anonymous user's Opinion**

Steps if you think you have it. How long it typically lasts. Job openings.

**Anonymous user's Opinion**

I look for information on symptoms, how to minimize contracting disease, what to do if you have symptoms, statics on spread and how prevalent it is in our community. Facts on Covid-19, the science behind it, statistics...pretty much absorbing as much information as I can to help keep myself, family and community safe.

**Anonymous user's Opinion**

Receiving daily updates and suggestions for quarantine and or lockdown instructions from Governor Tim Walz. The state of Minnesota and health care agencies announcements/ plans for operations day by day is very important to me.

**Anonymous user's Opinion**

What exactly will stay open/close and who can go out and where

-  **Anonymous user's Opinion**
County or city Number of cases, testing centers, local govt steps and assistance, local and national government updates, grocery items availability.
-  **Anonymous user's Opinion**
Closings
-  **Anonymous user's Opinion**
Continued factual information and shelter in place order
-  **Anonymous user's Opinion**
I've seen a lot of mis-information on social media about how you catch COVID-19; people think it's airborne. It would be helpful to have coordinated communication at all levels telling residents how one catches the virus.
-  **Anonymous user's Opinion**
Understanding the local infection rates as well as the policies that the city would like us to follow
-  **Anonymous user's Opinion**
How and where to buy essential goods. Local social distancing protocols (up to date). Opens and closed businesses.
-  **Anonymous user's Opinion**
Facts presented without a particular political slant. Also facts that are responsibly reported without speculation. There are too many reports lacking a proper context.
-  **Anonymous user's Opinion**
What businesses and govt agencies are closed Best ways to shop for businesses that are open Symptom info and how to get medical help if needed Ways to stay connected with others in the community while social isolation is needed
-  **Anonymous user's Opinion**
keeping parks, trails, nature areas open
-  **Anonymous user's Opinion**
Up to date local information like how many positive infections in EP How can I best help others in our community--specifics not just generalities
-  **Anonymous user's Opinion**
None
-  **Anonymous user's Opinion**
Factual Information on COVID19 shared as soon as possible. Closures of businesses and schools, shelter in place orders-advanced notice.
-  **Anonymous user's Opinion**
Trends and information about testing, possible hospitalization etc.
-  **Anonymous user's Opinion**
Updates on status and public announcements
-  **Anonymous user's Opinion**
How bad is it in EP and surrounding cities. If we must go out where might be safest?
-  **Anonymous user's Opinion**
Continuing to communicate what is open and available and how to approach. Example is if food stores are open, are they only letting a certain amount of people in at a time, etc?
-  **Anonymous user's Opinion**
Change of plans for schools and order to limit movement
-  **Anonymous user's Opinion**
Not the fear tactics being used now. Facts not fear.
-  **Anonymous user's Opinion**
Local community resources and current status. Numbers of cases in immediate area. Any information about quarantine status or changes.
-  **Anonymous user's Opinion**
Accurate and real time
-  **Anonymous user's Opinion**
Recovery rate and also story of those infected

-  **Anonymous user's Opinion**
Most current updates/health suggestions, grocery availability, needs of the community ie. blood, PROP, etc...
-  **Anonymous user's Opinion**
Nothing our State government is doing a great job
-  **Anonymous user's Opinion**
Address to nearest testing Center's
-  **Anonymous user's Opinion**
Status of cases in MN summarized by - active, recovered, dead Status of treatment plans, immunization research Summary of what hospitals in MN are treating the virus so I know where to go in emergency (IE if I have virus, versus if I have a non virus related medical emergency and want to limit exposure risk) Trend reports of other communities that have peaked and are now seeing reduction in outbreak - what made them see the reduction, which steps should we mirror to have similar successes
-  **Anonymous user's Opinion**
Symptoms and isolation requirements moving forward, testing necessity and availability, best practices if sever symptoms occur.
-  **Anonymous user's Opinion**
Availability of essential services/house hold items, Kids school/daycare, safety measures and progress on cure
-  **Anonymous user's Opinion**
not hearing false news, I would like/appreciate accurate news
-  **Anonymous user's Opinion**
Any research-based information that gives an accurate depiction of what is needed and what we can do.
-  **Anonymous user's Opinion**
Knowing how long to expect things to be thid way. Info on mental health services.
-  **Anonymous user's Opinion**
Knowing where hard to find grocery items are being stocked (know it'll be a rolling target). We're all high risk in the family and having to go to multiple stores or wait for days to find basics like flour puts the family at higher risk.
-  **Anonymous user's Opinion**
Information on school closures and child care for healthcare workers
-  **Anonymous user's Opinion**
The number of cases in the city. How long closures will last. Whether or not it is okay to be at parks.
-  **Anonymous user's Opinion**
What is open or closed, how to best get essential food and health items, status of COVID-19 cases in the city/area where to get medical care, the truth about how long this will last
-  **Anonymous user's Opinion**
Shopping information - a clearing house of information about what's open when, and a list of people who will shop for at-risk or quarantined people.
-  **Anonymous user's Opinion**
Clear information on supplies, social distancing, location and number of individuals infected/died down to the town/address
-  **Anonymous user's Opinion**
It's hard to say, there is so much information available & can be overwhelming.
-  **Anonymous user's Opinion**
Any information that will effect daily activities and/or income
-  **Anonymous user's Opinion**
Confirmed cases in my city. Where /Who To Ask if I have a specific need that needs to be addressed How I can help
-  **Anonymous user's Opinion**
Numbers on residents that are positive.
-  **Anonymous user's Opinion**
The current infection areas with in city area and the number of infections.
- Anonymous user's Opinion**

-  Governor Walz's press conferences
-  **Anonymous user's Opinion**
Local cases if increased.
-  **Anonymous user's Opinion**
Actual map tracking of infection and confirmed cases
-  **Anonymous user's Opinion**
FACTS about where the risks are. Is it safe to go to the local grocery stores? Which stores are doing better at sanitization, etc? Byerlys is exceptional, they have hand sanitizer at the door, plus food service gloves for customers, and have someone to wipe down and sanitize the grocery cart before you use it. Walmart has none of that! I WOULD LIKE TO SEE A DETAILED LISTING OF WHAT PRECAUTIONS ARE BEING TAKEN BY LOCAL MERCHANTS! This would help be plan to shop safely for necessities.
-  **Anonymous user's Opinion**
Local data on tests/results - city level if possible
-  **Anonymous user's Opinion**
Availability of testing in the region and locations of testing outside of healthcare settings.
-  **Anonymous user's Opinion**
Do's/Don't's for social Distancing
-  **Anonymous user's Opinion**
Restrictions, what is open, etc.
-  **Anonymous user's Opinion**
If tests are available, where the spread is (but we don't know because there are no tests for the average sick at home)
-  **Anonymous user's Opinion**
Household supply availability (for example toilet paper), as well as city's recommendation for social distancing (for example can my kids play at the park if nobody else is there).
-  **Anonymous user's Opinion**
Status of essential supplies in stores.
-  **Anonymous user's Opinion**
I just need to know the local impacts- what is open/closed; rules/recommendations with local impact
-  **Sarah E Johnson's Opinion**
Information about financial help for unemployed
-  **Anonymous user's Opinion**
Clear, concise directions issued in everyday language, plus the rationale for those directions.
-  **Anonymous user's Opinion**
It would be helpful to know if residents in Eden Prairie are testing positive for COVID-19 and it would be helpful to know plans for getting tests to local clinics and drive through testing sites.
-  **Anonymous user's Opinion**
Availability of testing. Information about geographic spread updated with actual testing results.
-  **Anonymous user's Opinion**
Where we can find hand sanitizer, wipes and T-paper in stock?
-  **Anonymous user's Opinion**
status of rules about establishments outside the home particular to EP
-  **Anonymous user's Opinion**
Accuracy, non contradictory, caring, not alarmist, plan of action sooner
-  **Anonymous user's Opinion**
What precautions to take to avoid contracting it.
-  **Anonymous user's Opinion**
Sending it out in various languages other than english so that everyone is following recommended guidelines, and not just those that are English-dominant.

-  **Anonymous user's Opinion**
Would be extremely helpful to know what is open or not, updated hours on grocery stores, updates on stocked items, how to get medical care in our city if needed since our local clinics are not really answering phones now. Tips on what to do in general for boredom. Kids are completely isolated. Library status, and updates etc.
-  **Anonymous user's Opinion**
The important and vital facts.
-  **Anonymous user's Opinion**
quarantine procedures for the city, essential services still open with the city, and emergency safety plan for the city and recommendations for individual households
-  **Anonymous user's Opinion**
Knowing resources that are open. Is there a way to list alternatives to the ER. For example, suspected broken bone... go to Orthopedics, and not the ER. A plan B list if you will?
-  **Anonymous user's Opinion**
Alternatives to every day items.... how long to stock up for at a time.
-  **Anonymous user's Opinion**
The most up to date accurate information sent via text or email.
-  **Anonymous user's Opinion**
How long this epidemic will last
-  **Anonymous user's Opinion**
Facts instead of commentary.
-  **Anonymous user's Opinion**
Progress reports
-  **Anonymous user's Opinion**
Info on COVID cases in the locality (Not specific). A high level at neighbourhood.
-  **Anonymous user's Opinion**
Understanding the rules in place
-  **Anonymous user's Opinion**
I rely on CDC website.
-  **Anonymous user's Opinion**
How to protect ourselves and prepare for now and the future
-  **Anonymous user's Opinion**
Knowing the criteria for reopening businesses and getting back to our normal routine.
-  **Anonymous user's Opinion**
Sources of sanitizer, etc
-  **Anonymous user's Opinion**
City-specific responses and updates
-  **Anonymous user's Opinion**
What we should do in we get the coronavirus. Is there a local place to go, or should we just call our doctor?
-  **Anonymous user's Opinion**
Knowing what will and won't stay open.
-  **Anonymous user's Opinion**
Knowing when grocery stores are stocked with the most hard to find items.
-  **Anonymous user's Opinion**
Any news, even a reminder, of how we can help out one another, e.g. remember social distancing, try to go to the grocery store every 10 days (plan ahead in these trying times), call your elderly neighbor or anyone living alone every so often to ensure their needs are being met.
-  **Anonymous user's Opinion**
The truth without violating my constitutional rights.

-  **Anonymous user's Opinion**
Quarantine updates, prevention information, available services - stores, restaurants, entertainment, churches,
-  **Anonymous user's Opinion**
Getting ongoing updates about what we know about the virus, how it spread and REAL numbers of infections for our area (not made up ones based on assumptions).
-  **Anonymous user's Opinion**
where to get supplies
-  **Anonymous user's Opinion**
How long this will last (understand that this is asking the impossible)
-  **Anonymous user's Opinion**
Where we can find and purchase essential products that many individuals are panic buying.
-  **Anonymous user's Opinion**
Have city parks people clean the goose poop off the sidewalks. Spray it down. Lots of people out walking
-  **Anonymous user's Opinion**
Updates on number of cases testing positive in Eden prairie
-  **Anonymous user's Opinion**
Clear scientific data on the virus and illness. Also, how to help neighbors and community members quickly and directly.
-  **Anonymous user's Opinion**
Frequent data updates locally and steps taken to prevent critical situations. Making sure peace and safety environment is developed to make it through the pandemic situation.
-  **Anonymous user's Opinion**
Understanding where our state is at.
-  **Anonymous user's Opinion**
Accurate, non-hyping, info.
-  **Anonymous user's Opinion**
updates on Eden Prairie website
-  **Anonymous user's Opinion**
Suggestions about how to speak to my children about it. "Easy" steps to proper cleaning.
-  **Anonymous user's Opinion**
Information to dispel myths that keep circulating online. One day it's a military takeover and the next the gas pumps will kill you. Obviously those are not real but people share them and cloud the real news from reaching people.
-  **Anonymous user's Opinion**
More City information. What help is available? What are the current restrictions? Would like a daily update.
-  **Anonymous user's Opinion**
Daily updates
-  **Anonymous user's Opinion**
Having more resources available in Eden Prairie
-  **Anonymous user's Opinion**
What all facilities are there and location, where residents can reach out if any symptoms occur.
-  **Anonymous user's Opinion**
How to stay healthy along with precautions to take when getting groceries.
-  **Anonymous user's Opinion**
Where to purchase things so as not to travel around town looking
-  **Anonymous user's Opinion**
List or number of infections in our neighborhood. List of testing stations in or near our city.

**Anonymous user's Opinion**

The information must be both current, relevant and realistic.

**Anonymous user's Opinion**

Where can I find essential supplies? Over the last 2 weeks I've only briefly been out twice and cannot find toilet paper, hand sanitizer or disinfectant wipes. I also do not feel safe at stores as there were teens hanging out at Target yesterday and other adults were not keeping distance. It would be helpful to have more enforcement for social distancing.

**Anonymous user's Opinion**

Changing guidelines and evidence, local resources

**Anonymous user's Opinion**

Publish facts instead of slanted headlines that infuse panic

**Anonymous user's Opinion**

How to get essential items delivered to home. Are there cases in EP. How to get the kids to leave Hidden Ponds park.

**Anonymous user's Opinion**

Which grocery stores have critical supplies (TP, eggs, etc.) so I don't have to go into all of them and risk exposure everywhere just to get basic necessities. We didn't (maybe foolishly?) hoard anything, so finding things now means high risk shopping outings.

**Anonymous user's Opinion**

information for staying safe when out of the home

**Anonymous user's Opinion**

Any updated information

**Anonymous user's Opinion**

Where to find supplies and making sure the high risk and elderly are taken care of. As well as where to test

**Anonymous user's Opinion**

General information at this time has been most helpful. All attempts to get specific have been moot.

**Anonymous user's Opinion**

informatio about school closures, any state orders

**Anonymous user's Opinion**

Knowing how widespread it is in Eden Prairie. What is permitted in public spaces. For example, Round Lake was full of kids not social distancing at all and all skateboarding today on 3/25/2020. Doesn't even feel safe to walk by.

**Anonymous user's Opinion**

Difficult to tell, there are so many unknowns. Even the "experts" change as the pandemic spreads.

**Anonymous user's Opinion**

Continuous updates on social distancing rules as well as economic assistance available. Updates on local resources for those affected. An update on the city's emergency response plan to COVID-19 if things get really bad - will police keep order at grocery stores? What about emergency medical response?

**Anonymous user's Opinion**

A list of anticipated necessary supplies. Partnerships with retailers/suppliers who can provide such supplies - plus links on how to contact them and/or order said supplies. Continued guidance on how to stay healthy. What to do and where to go (specifically) if COVID-19 is suspected. What to do and where to go (specifically) if medical care for other conditions is required. Perhaps all this can be accomplished with a web page of resources? (please confirm that all links are valid and can actually help, preferably reconfirmed often!)

**Anonymous user's Opinion**

More info about what to expect. When to get checked out and what happens after recovery... what can be expected ?

**Anonymous user's Opinion**

Continued awareness on the status of the spread of COVID-19 in the community.

**Jack Lin's Opinion**

Where to get masks, toilet paper, hand sanitizer, disinfection wipe?

**Anonymous user's Opinion**

Updates on cases in the city, in Hennepin County, the severity. Resources to turn to, symptoms to look for, what community resources can we rely on, essentially factual information that is led by our community leaders to help keep things calm and yet safe for all to enjoy and get through this.

**Anonymous user's Opinion**

Updates on new cases.

-  **Anonymous user's Opinion**
No speculation; healthy facts only!
-  **Anonymous user's Opinion**
Financial help as I am single and being laid off of my job and have a dependent
-  **Anonymous user's Opinion**
Treatments!?! Warm stream showers? Steroids? Inhalers? Where are the places to go in the area if you need help medically.
-  **Anonymous user's Opinion**
Things to stock up, how to avoid getting COVID-19
-  **Anonymous user's Opinion**
Now that we are getting things delivered, or picking up--how to stay safe in these cases. Gloves? How long does the virus last on plastic (72 hours), cardboard, etc. Is it safe to take our mail in? The self diagnosis site is good. Encouragement for people not to be stupid and hoard things like toilet paper (Really!) When and where drive through testing sites are available. Reminders of procedures.
-  **Anonymous user's Opinion**
More specific locations of those diagnosed.
-  **Juan Salvador Canales's Opinion**
Prevention measures.
-  **Anonymous user's Opinion**
Location of cases.
-  **Anonymous user's Opinion**
Indications of increased threat of contagion in EP
-  **Anonymous user's Opinion**
What businesses are open now?
-  **Anonymous user's Opinion**
I think local gvt needs to work with local businesses to put together an action plan for essentials as well as hours of operation for certain populations of citizens -- elderly, first responders, health care workers, general population, etc. and then restrict or assign times for those individuals to get their supplies.
-  **Anonymous user's Opinion**
Stats by city Knowing which essential services are open or closed Positive news midst the current situation
-  **Anonymous user's Opinion**
Health info Info about cases....location etc
-  **Anonymous user's Opinion**
I love the text updates I am getting from Kare 11 with important announcements. As the news can be a downer and I'm trying to minimize, I like knowing I will get the important news very timely via text.
-  **Anonymous user's Opinion**
Really anything we need to know to be safe and if anyone needs help from other community members.
-  **Anonymous user's Opinion**
More specifics on essential or critical businesses and buildings.
-  **Anonymous user's Opinion**
Info for Health care workers
-  **Anonymous user's Opinion**
Updates on what is open and closed and stay home directions. How many cases are in my community.
-  **Anonymous user's Opinion**
New orders, closures
-  **Anonymous user's Opinion**
After a very slow start, we feel good information is available now. More information on the risk grocery store, delivery and related service people are taking is lacking. Our behavior toward them matters.
-  **Anonymous user's Opinion**
Current status, planned initiatives, and results.

-  **Anonymous user's Opinion**
How best to protect ourselves a well as ways to help our neighbors.
-  **Anonymous user's Opinion**
Continued sharing of best practices and research/scientific news
-  **Anonymous user's Opinion**
Reminder about the things we can and cannot/should not do.
-  **Anonymous user's Opinion**
Knowing early signs of COVID-19 infection, as differentiated from the common cold or flu. Knowing drive-thru COVID-19 testing locations for someone whether showing signs or not.
-  **Anonymous user's Opinion**
The days of toilet paper, cleaning supplies, and soaps/sanitizers get delivered at the various stores in town. Also who's got what essentials in stock and who's out.
-  **Anonymous user's Opinion**
Store shipments and timing
-  **Anonymous user's Opinion**
1. Simple paths: If these symptoms, do this. If these needs, contact this outfit. 2. Reality and perspective. Example: Worst case US death scenario is still less than the number of people that die each year from cancer. How many people to YOU personally know who died from cancer last year? That's how many deaths we're talking about. Tragic, awful, heart-wrenching..YES. "End of the world as we know it"? Not close. Heard a talking head say a month ago that by April 1 each of us would know someone who died of this. Not. Stay with reality and correct perspectives so we can deal logically with everything from PPEs to toilet paper.
-  **Anonymous user's Opinion**
Honest and Accurate information.
-  **Anonymous user's Opinion**
We should be prepared by now. This pandemic has been going around since late December.
-  **Anonymous user's Opinion**
Policy changes, emergency contacts, covid-19 preparations
-  **Anonymous user's Opinion**
Numbers of confirmed cases/deaths/recovered in EP.
-  **Anonymous user's Opinion**
More facts, less hysteria. Publish some numbers about how this compares to past epidemics or other sources of death (e.g., car accidents, alcoholism/drug OD, street violence, etc.)
-  **Anonymous user's Opinion**
Clear, concise, non-sensationalized, factual info and instruction.
-  **Anonymous user's Opinion**
Whether or not there is an outbreak near me.
-  **Anonymous user's Opinion**
Any new cases in Local
-  **Anonymous user's Opinion**
Knowing what restaurants and services are open and how to practice distancing when a repair person needs to enter the house
-  **Anonymous user's Opinion**
Important information that is up to date and real.
-  **Anonymous user's Opinion**
The facts as we know them! Expert analysis not political opinions!
-  **Anonymous user's Opinion**
If possible, where and how have people contracted it. How save is it to go to grocery stores? Why is there a shortage of protective supplies and why is it not being "fixed"?
-  **Anonymous user's Opinion**
Step by step of what to do if you think you have symptoms. Recommend linking to a high level govt entity's info.
-  **Anonymous user's Opinion**
Health updates and what people can do to prevent getting sick.

If other, please comment here:

**Anonymous user's Opinion**

No one in our household is quarantined or self-isolated.

**Anonymous user's Opinion**

I am over 60, but the only adult in the household. How do I self isolate?

**Anonymous user's Opinion**

Immunocompromised

**Anonymous user's Opinion**

I am 60.

**Anonymous user's Opinion**

We just returned from South Africa, and had to go thru 10 airports in the last 2 weeks. Therefore we are confined to our house and are having trouble getting food.

**Anonymous user's Opinion**

No, but we are staying home and avoiding being out as much as possible.

**Anonymous user's Opinion**

To limit interaction with people

**Anonymous user's Opinion**

Because husband's office is now "work from home". Governor said we should. Gotta flatten the infection curve.

**Anonymous user's Opinion**

NA

**Anonymous user's Opinion**

Work from home as directed, though health concerns are vital as well.

**Anonymous user's Opinion**

Recently traveled to CA

**Anonymous user's Opinion**

We all should be self-quarantined. The number of cases in MN is low because we are not doing the same level of testing as other states. We need to do our part now!

**Anonymous user's Opinion**

Not applicable

**Anonymous user's Opinion**

Just playing it safe

**Anonymous user's Opinion**

Guidance from government experts.

**Anonymous user's Opinion**

Asthma

**Anonymous user's Opinion**

No I was isolating but has been 15 days since I was in contact with my friend who was a flight attendant and had a cold...her test was negative but I self isolated anyway.

**Anonymous user's Opinion**

Working from home

**Anonymous user's Opinion**

Work has allowed working from home. So staying in except when getting groceries and trying to limit that time out.

-  **Anonymous user's Opinion**
Everyone in my household had a cold in early march.
-  **Anonymous user's Opinion**
I don't understand your question. We are both home and not going out except for food. We are both healthy at this time.
-  **Anonymous user's Opinion**
Adult child is immune compromised. Our entire family is being very cautious.
-  **Anonymous user's Opinion**
Minimizing to be safe.
-  **Anonymous user's Opinion**
Was on a Western Caribbean cruise the last week in January before this really entered the news.
-  **Anonymous user's Opinion**
We are self-isolating as best we can for general help with flattening the curve.
-  **Anonymous user's Opinion**
Trying to do our part to flatten the curve.
-  **Anonymous user's Opinion**
Arthritis
-  **Anonymous user's Opinion**
We both have high blood pressure and high cholesterol. I am also prediabetic. My husband is monitored regularly for possible multiple myeloma. I am 77 and husband is 73.
-  **Anonymous user's Opinion**
I'm 69, and my wife is 67. My health is generally quite good. My wife is a survivor of chemotherapy, radiation, and surgery for cancer treatment. These things tend to compromise one's immune system. So, we're being cautious about possible exposure, but have not actually quarantined or self-isolated.
-  **Anonymous user's Opinion**
In the absence of testing, and due to the reported contagiousness before symptoms, we are self isolating to help break the chain of contagion.
-  **Anonymous user's Opinion**
Social distancing. Go out for meds and groceries
-  **Anonymous user's Opinion**
Whole organ transplant recipient with immunosuppression
-  **Anonymous user's Opinion**
Afraid of contracting it!!!
-  **Anonymous user's Opinion**
First responder in house who is working during this time making rest of household at greater risk so decided best to self lockdown.
-  **Anonymous user's Opinion**
Have 2 toddler grandchildren, a newborn granddaughter and 95 year old great grandmother in the area.
-  **Anonymous user's Opinion**
Now have the ability to work from home during normal work hours
-  **Anonymous user's Opinion**
We are self-quarantined based on common sense and government recommendations.
-  **Anonymous user's Opinion**
Recent domestic air travel
-  **Anonymous user's Opinion**
I am trying to self isolate as much as possible in general even before Gov. Walz has issued the shelter in place order.
-  **Anonymous user's Opinion**
My employer has given me the opportunity to work from home, so I am choosing to #StayHome.

-  **Anonymous user's Opinion**
State orders
-  **Anonymous user's Opinion**
Working from home during government shelter in place
-  **Anonymous user's Opinion**
We've quarantined our entire family since Friday 3/13, we have two member (my son and myself) with severe asthma.
-  **Anonymous user's Opinion**
following the rules!
-  **Anonymous user's Opinion**
We have been staying home for over 2 weeks due to my underlying health condition.
-  **Anonymous user's Opinion**
My wife is currently receiving chemotherapy and has a compromised immune system.
-  **Anonymous user's Opinion**
We have stayed at home voluntarily to provide our day care spots to essential workers
-  **Anonymous user's Opinion**
I take medicine that compromises my immune system
-  **Anonymous user's Opinion**
None
-  **Anonymous user's Opinion**
Our family of 4 (mom, dad working from home & kids home from school) are staying home for our own safety.
-  **Anonymous user's Opinion**
Asthma
-  **Anonymous user's Opinion**
My 76 year old husband has had lung cancer multiple times; has only one lung and is very susceptible to pneumonia
-  **Anonymous user's Opinion**
CDC as well as state and county health officials urge caution about shopping or venturing out unless necessary.
-  **Anonymous user's Opinion**
I would also know the status of the EP population specifically. Also, for example, if a Lunds employee gets it - will the store close down? Can we have this information to decide if we want to visit such establishments?
-  **Anonymous user's Opinion**
My wife woke up with a sore throat, tight chest and cough 3/14, followed by mild fever later that day. We started self-quarantine. Fatigue, sneezing, tight chest and swollen lymph glands came next, but all symptoms remained mild. I came down with the same six days later, but both of our symptoms remained mild did not qualify for testing, which makes sense given the shortage of testing available. Symptoms waxed and waned, but we are both definitely feeling better. No fever, rare cough, less fatigue. It seems we are a part of the 80% mild-symptom cases that are not being tracked. As CDC advises, we will continue self-quarantine until completely symptom free for at least 3 days. If the city used a survey tool such as this so people could report dates and symptoms such as I have, perhaps that would give researchers and city planners information that might help prepare for future events (which given what medical experts are reporting, needs to happen).
-  **Anonymous user's Opinion**
None of the above.
-  **Anonymous user's Opinion**
Per the City of EP mayor (and MN governor), we are both staying at home except for 1-2x-a-week brief grocery shopping trips and walking to the mailbox down the block.
-  **Anonymous user's Opinion**
Normal cold/flu symptoms....NOT COVID-19
-  **Anonymous user's Opinion**
I live alone and I'm in my 70s with Asthma
-  **Anonymous user's Opinion**
Because it is the right thing to do to protect myself and to protect others.
-  **Anonymous user's Opinion**

Just following the state and experts recommendations

Anonymous user's Opinion

a new baby is due any day in our household and 2 children under 3 yo and 2 adult 31 yo and 2 adult 63 yo. We simply think this makes us much safer.

Anonymous user's Opinion

My husband is 74 years old and has asthma and a heart valve problem

Are you providing financial, emotional, or other support for extended family not living with you who fall into one of the following categories: are older than 60, have a chronic health condition, and/or are disabled?

What are your household's biggest concerns right now regarding COVID-19?

Anonymous user's Opinion

having enough money and the drop in the markets

Anonymous user's Opinion

People not following recommendations, this getting worse and taking longer to overcome

Anonymous user's Opinion

My husband's job is "essential" and he is able to work from home. I'm currently unemployed not working since 03/13/2020. No exposure issues here with all four family members. My mother lives with us and is over the age of 70 and does have some past health issue, but currently is okay. Everyone is doing well.

Anonymous user's Opinion

Reducing the spread of coronavirus and concern about how long we need to maintain social distancing.

Anonymous user's Opinion

That we don't know much about COVID in our immediate community - we just have broad based county numbers. That there aren't any end dates in place to the restrictions. That we aren't hearing too much about how we can as a country/state/community work towards a point where many people can go back to work.

Anonymous user's Opinion

Waiting for this to end

Anonymous user's Opinion

Getting appropriate staples needed to live and ability to get them

Anonymous user's Opinion

balancing work and childcare/home-schooling committments.

Anonymous user's Opinion

Not contracting it

Anonymous user's Opinion

The fear mongers who are causing our entire structure to collapse, we need to be far more worried about a complete financial collapse in our economy.

Anonymous user's Opinion

That the children will contract and bring it home to me. Then there will be one to care for them. Second, my father over 90 living alone in southern Iowa. He cares for the entire community, who will care for him?

Anonymous user's Opinion

Available hospital care and essential grocery and supply delivery

Anonymous user's Opinion

We aren't suffering, I'm just sharing... We have decent internet, but with everyone using it (not just in the house, but in the community, state, world), we are experiencing some difficulty at times. We may have to put family members on shifts.

Anonymous user's Opinion

How our basic civil rights are being gradually eroded to the point that we are prisoners in our house. How my children are being robbed of an education and there is no plan in place on how that will be rectified. How small businesses will be ruined by the government orders.

Anonymous user's Opinion

Getting sick and been able to have enough money for food

Anonymous user's Opinion

On social media I see a lot of people who still don't fully understand why their civil liberties should be imposed upon in order to slow the spread of the virus. Also, I don't think people have a realistic picture of how long we are going to have to social distance. The president has said that the US should be back in business by Easter, but science does not support that. If the US stops social distancing, people will needlessly die.

Anonymous user's Opinion

Uncertainty about the possibility of Sheltering in Place (coming soon). What we will be allowed to do--what businesses will remain open to us.

Anonymous user's Opinion

I have a photography business that is grinding to a halt! How will my business survive?

**Anonymous user's Opinion**

My employment challenge: I am working from home. Internet is slow, but it is adequate. Household Concern: Getting food/meds without picking up the virus. And the USA/world economy. We are getting close to retirement -and hope financially we still can.

**Anonymous user's Opinion**

Getting the appropriate household necessities, as I am diabetic.

**Anonymous user's Opinion**

Zero income from my self employed contracts, until this new bill I was ineligible for unemployment. I can't currently afford too much for food, and I have a fractured hand that I didn't get looked at because I can't afford to go to the hospital.

**Anonymous user's Opinion**

School closure, Not socializing with others, too much time with spouse.

**Anonymous user's Opinion**

Main concern is keeping family safe. My son lives in St. Paul and I worry that if he gets sick I won't be able to take care of him.

**Anonymous user's Opinion**

Trying to work from home (both parents) while kids are home and have day to day needs.

**Anonymous user's Opinion**

getting ill; not having needed supplies -- and safely delivered; loneliness

**Anonymous user's Opinion**

Making sure we can pay the mortgage.

**Anonymous user's Opinion**

People continuing to hoard Clorox, TP, and staple groceries. Unable to get "normal" supply of groceries. Getting out of shape due to being confined to house.

**Anonymous user's Opinion**

My husband is being furloughed for 2 weeks with no pay during that time.

**Anonymous user's Opinion**

People hoarding

**Anonymous user's Opinion**

Ability to get basic necessities at the store. Still not seeing basic items like toilet paper, baby wipes, and etc readily available. Stores need to enforce purchase limits.

**Anonymous user's Opinion**

Prevention of surgeries that have been scheduled and unable to see anyone.

**Anonymous user's Opinion**

Extent of disease in the community

**Anonymous user's Opinion**

Economic

**Anonymous user's Opinion**

Neighbors and businesses in the city are not practicing sufficient social isolation to significantly slow the spread.

**Anonymous user's Opinion**

How long will the stay-at-home order last? When will healthcare workers have the right equipment? Also, there is some evidence that the virus spreads in the air. Every one should be wearing a mask when at grocery store or pharmacy.

**Anonymous user's Opinion**

No real concerns, I'm able to work from home so as long as I'm able to get groceries and essentials delivered, I'm doing well.

**Anonymous user's Opinion**

Threat of contracting disease; welfare of children

**Anonymous user's Opinion**

getting it, long term financial effect

**Anonymous user's Opinion**

Reduced client hours

-  **Anonymous user's Opinion**
Unified response so we can maximize the value of the social distancing. The less effective we respond now, the longer the economic strain will last.
-  **Anonymous user's Opinion**
Want schools to reopen as soon as possible.
-  **Anonymous user's Opinion**
On furlough. While wife works. Cuz of hotel guest shortage & lack of hours.... not able to do unemployment. : [
-  **Anonymous user's Opinion**
Helping our adult children deal with their infants and preschoolers (or grandchildren). Also, getting things delivered in a few days from amazon.com, et al.
-  **Anonymous user's Opinion**
Safety for ourselves, flattening the curve overall, more so for my parents who are both in their 90s and living in senior living situations. We are fortunate to not have financial stress other than plummeting of retirement assets.
-  **Anonymous user's Opinion**
Who has it, will we ever be able to get tested, who is suffering and none knows
-  **Anonymous user's Opinion**
Our city and state is too lax in its response. We should be at a shelter in place level with limit external travel. Harsh measures now will significantly reduce the amount of time they are needed. When compliance is not enforced or the importance not communicated the process and disease will be much longer requiring much longer isolation periods.
-  **Anonymous user's Opinion**
We are on Social Security
-  **Anonymous user's Opinion**
Community members are not taking social distancing seriously. We live very close to a city park (Edenvale), and every day there are groups of teenagers playing basketball together, groups of teenagers playing football or soccer in the field, and groups of children playing together on the playground equipment. I drove by Round Lake Park last weekend and saw a huge group (20+) gathered at the skate park. I think that all city parks should be closed like many other communities are doing.
-  **Anonymous user's Opinion**
How to stay safe and get needed resources for the duration.
-  **Anonymous user's Opinion**
Trying to stay up to date on the latest information and the best thing we can do as a family to keep us and the community safe. Also making sure we maintain internet to work from home and access to fresh foods and general daily supplies for us to safely stay at home.
-  **Anonymous user's Opinion**
Getting COVID19 without knowing, and the possibility of passing it on when getting groceries (the only time any of us are out). Or, unknowingly getting the virus while being uber cautious with hand washing, etc. The second concern is of being in a forced lockdown when we won't be able to get outside and walk the dogs, or be outside. The last concern is the impact on the economy and for those of us close to retirement age that do have money, but may lose quite a bit with no help.
-  **Anonymous user's Opinion**
Mental health. We are struggling. This is a large change of pace and it is hard on us. It is just my son and I here.
-  **Anonymous user's Opinion**
No major concerns. Adult son lives with me, and shops carefully as needed. Main concerns are safety of two adult children - one in Mexico and other in China. I'm glad to be in EP and MN.
-  **Anonymous user's Opinion**
Health of parents and childcare
-  **Anonymous user's Opinion**
Where are people testing positive; financial stress if I lose my job; the health of my son and his family in West Bloomington.
-  **Anonymous user's Opinion**
The spread of the virus and making sure we are all a part of controlling and stopping the virus
-  **Anonymous user's Opinion**
Ability to safely get groceries and certain hoarded items such as SOAP, toilet paper, and other cleaning products.
-  **Anonymous user's Opinion**
Getting the kids safely back in school, not only for educational purposes, but social/emotional ones as well.
-  **Anonymous user's Opinion**
4 of us have asthma. Trying to stay as isolated as possible. Frustrated by seeing large groups of kids & teens congregating are playgrounds and skate park.

-  **Anonymous user's Opinion**
Inaccurate data and inconsistent recommendations re prevention
-  **Anonymous user's Opinion**
Illness risk to our family. Financial risk. Because I am self-employed in the travel industry, I have no income at this time.
-  **Anonymous user's Opinion**
Health and safety
-  **Anonymous user's Opinion**
Reduced hours in regular job (outpatient physical therapist), may be "deployed" to higher risk areas which increases COVID risk
-  **Anonymous user's Opinion**
Losing business income but not shut down. Programs do not apply. More loans are not the answer. Imagine if unemployment insurance was a loan and everyone had to pay it back.
-  **Anonymous user's Opinion**
Consistent childcare
-  **Anonymous user's Opinion**
long-term economic impact
-  **Anonymous user's Opinion**
Keeping it from inundating our healthcare network
-  **Anonymous user's Opinion**
Economic fall out and how it will effect our family. The time line. No Shelter at Home order - we are already acting in this capacity.
-  **Anonymous user's Opinion**
Workplace furloughing me due to reduced workload.
-  **Anonymous user's Opinion**
Financial
-  **Anonymous user's Opinion**
Duration of shutdown, potential impact on my employers's business and my employment status.
-  **Anonymous user's Opinion**
That the federal government or my employer will end policies that support responsible isolation prematurely.
-  **Anonymous user's Opinion**
Financial. Impact of Virus on stock market and my investments.
-  **Anonymous user's Opinion**
Keeping everybody healthy even though we are at low risk
-  **Anonymous user's Opinion**
Supplies of essential items such as food, toilet paper, etc. and the risks associated in obtaining them.
-  **Anonymous user's Opinion**
Money
-  **Anonymous user's Opinion**
the spread of the virus
-  **Anonymous user's Opinion**
Supplies. Up to date info
-  **Anonymous user's Opinion**
The government locking everything down is having a significant impact on our community that is out-weighting the health impact. People have been let go of jobs, and a stimulus will not fix this. Businesses will have major reduced revenue, and may not be able to recover. These businesses employ the people that live here, so that means that the people that live here will be without jobs and income.
-  **Anonymous user's Opinion**
stay healthy and free from the virus

**Anonymous user's Opinion**

We believe the virus has actually spread through EP, and that our household has already had it (back in Jan.) We are most interested in testing for antibodies that may prove we are no longer carry nor transmit the disease since we have already had it. It would be great if the city could take a look at where the virus has been versus where they think it is going to go.

**Anonymous user's Opinion**

Income. I launched a consulting biz last year and COVID 19 throws all of my projections out the window. We are unsure about how self employed launches like this will be helped by SBA or stimulus package. Seems we will fall through the cracks.

**Anonymous user's Opinion**

Staying safe

**Anonymous user's Opinion**

Dependable WiFi, internet. Toilet paper.

**Anonymous user's Opinion**

Getting groceries and supplies while avoiding infection (all while having multiple chronic conditions that place me in high risk group).

**Anonymous user's Opinion**

Understanding best course of action if we fall sick. More education and resources and checklists to guide us through that. Telemedicine would be awesome

**Anonymous user's Opinion**

Being able to educate our children from home and their social needs with other children their age.

**Anonymous user's Opinion**

My biggest concern as the sole earner would be to lose my job or have hours reduced for any reason. I'm hoping that won't happen since I can work from home but you never know.

**Anonymous user's Opinion**

Concern that some households like ours are social distancing and staying home but others are not.

**Anonymous user's Opinion**

Please close the playgrounds, and strongly communicate that neighborhood play dates are not encouraged. We are seeing several kids and families playing at the playground daily.

**Anonymous user's Opinion**

Getting grocery delivery. Getting exercise while staying home.

**Anonymous user's Opinion**

I am not sure why I cant select more than one of these. I work for an "essential" business - construction. However I am in sales and my sales are close to zero. My base pay is only \$26k. Last year I made over \$150k and I can not live off of my base. I also have to put myself at risk with customers still coming into the office every day. The other person in the household also works for an essential business and has to be exposed daily We both do not feel well, we both will be hurting for money and will probably not qualify for any assistance.

**Anonymous user's Opinion**

Essential resources. Basic needs.

**Anonymous user's Opinion**

#1 is how many are testing positive in my city. If the number is high I would be less likely to venture out of doors.

**Anonymous user's Opinion**

Safety and keeping healthy. Have some concern or would like to see what EP is doing or will do to sanitize at local parks etc. Thank you for the up front communication during this time. It's appreciated!

**Anonymous user's Opinion**

Our biggest concern is that folks will not social distance properly which will then cause a more prolonged economic collapse.

**Anonymous user's Opinion**

How to balance work from home with supervising our children during e-learning without being penalized by our employer with reduction in pay or hours.

**Anonymous user's Opinion**

People in the community who are not taking this seriously, not staying at home, etc. Two members of my family work in the grocery industry and I'm worried about their health and safety as they interact with the public.

**Anonymous user's Opinion**

Collapse of the economy and the loss of all income

**Anonymous user's Opinion**

We both lost our jobs, we have three kids home with us, have to go on unemployment and will struggle to pay bills. We have an immunocompromised family member and an infant under 6 months old. We are concerned about getting groceries and meals and needed supplies.

**Anonymous user's Opinion**

Uncertain duration for guidance to self isolate. Longer term, financial and economic concerns.

**Anonymous user's Opinion**

Keeping up with expenses Protecting our child with fragile immune system

**Anonymous user's Opinion**

Long term impacts to work hours and ability to go in to our office

**Anonymous user's Opinion**

lack of testing available...I tried to call in but they said I was a mild case and just quarantine..which I did. Then my friends test was negative so turns out I didn't need it.

**Anonymous user's Opinion**

Loss of income. Loss of retirement savings.

**Anonymous user's Opinion**

Our income is dependent on charitable giving, and we may experience extreme reductions in income. However, because we are self-employed 1099 contracted workers, we do not qualify for most of the aid being discussed for workers.

**Anonymous user's Opinion**

Staying healthy for myself and my patients

**Anonymous user's Opinion**

Getting supplies and not coming in contact with the virus.

**Anonymous user's Opinion**

Being sick and not wanting to leave house for help.

**Anonymous user's Opinion**

I work as a TSA officer at the airport and will continue to be in contact with the public.

**Anonymous user's Opinion**

The future economy

**Anonymous user's Opinion**

Local spread and how long we are expecting the current situation to continue?

**Anonymous user's Opinion**

Will we lose our jobs? How long until stock market goes back up?

**Anonymous user's Opinion**

Staying healthy and not transmitting Covid-19 if we are already exposed. We are staying home as much as possible.

**Anonymous user's Opinion**

If there would be an extreme lockdown where grocery store access is not allowed and personal food and home supplies stock is completely used up.

**Anonymous user's Opinion**

Job security and grocery and health supplies

**Anonymous user's Opinion**

Loss of life, social distancing lasting too long

**Anonymous user's Opinion**

Staying healthy and safe. Dealing with why people are hoarding as unable to get basic essential items without having to venture out and risk exposure (stores not indicating online or by phone if they have the items)

**Anonymous user's Opinion**

Schools being closed for the rest of the school year. I have two children who receive special ed. services and it's nearly impossible to get that support virtually. I'm concerned they will lose the progress they've made this year if they aren't allowed to return until September, next school year.

**Anonymous user's Opinion**

When will the cases peak and start to come back down so that we can enter a recovery period that allows more people to get back to work.

**Anonymous user's Opinion**

Being able to get necessary supplies at home without greedy people stripping them from stores on a daily basis.

**Anonymous user's Opinion**

We have two high-risk family members and are also providing housing for a non-relative and an ailing senior dog. Our biggest concern right now is the extremely high number of community members not taking this seriously enough. Eden Prairie residents are posting photos of crowded playgrounds and asking community members for road trip advice. It's very frustrating. We wish Mayor Case would take a more formal stance on these topics and/or ask the Parks Dept. to start putting caution tape around playgrounds (like Edina did) and removing swings and tennis nets.

**Anonymous user's Opinion**

Staying safe. We go out for walks and groceries otherwise we are staying inside.

**Anonymous user's Opinion**

Social isolation Ways to get essentials without unnecessary risk Shortage of essential goods and food such as toilet paper, bread etc

**Anonymous user's Opinion**

So far my job hasn't been impacted. Our biggest concerns are whether or not I will continue to have a job. We are also very close to giving birth. Concerns surrounding birth and care for baby in this environment.

**Anonymous user's Opinion**

Staying emotionally and mentally healthy.

**Anonymous user's Opinion**

Biggest concern is staying corona virus free and helping those in need

**Anonymous user's Opinion**

Income. Both household members rely on restaurant jobs for their income and are not getting much for unemployment because pay rate is low due to tips.

**Anonymous user's Opinion**

Knowledge on virus and preventions

**Anonymous user's Opinion**

No income. Was laid off. Applied for unemployment. That MN has not ordered a shelter in place for everyone yet.

**Anonymous user's Opinion**

Health and economic stability. Need plaquinil as a maintenance drug and it is currently unavailable to those who need it to stay healthy

**Anonymous user's Opinion**

I work part-time and do not know if or for how long I will have it.

**Anonymous user's Opinion**

Hospital capacity should anyone in our household become severely symptomatic.

**Anonymous user's Opinion**

When will restrictions be lifted and when life will go back to normal

**Anonymous user's Opinion**

Losing jobs/financial Get back to work!! Numbers aren't balancing the financial death we will have! It will kill the middle class if we don't go back soon. Make smart choices. Look at the real numbers

**Anonymous user's Opinion**

Biggest concern is if someone gets sick. I don't really want to bring children to the doctor for risk of exposure. Also, trying to make as few trips out for food/necessities as possible. Sometime have to go to multiple stores to get all that is needed. That just increases the risk of getting sick.

**Anonymous user's Opinion**

Health of family, Income lost

**Anonymous user's Opinion**

Community transmission

**Anonymous user's Opinion**

Staying healthy Trying to navigate non-virus related health concerns as they arise and being fearful of going to a hospital and risking exposure Worried about possible increase in criminal activity due to others lacking work or resources Worried about employers requesting unnecessary in office/facility work presence - wish Governor would require any position that can be done at home be limited to 100% home stay only (no in office "touch bases" as my office has requested on a once every 1-2 week schedule)

**Anonymous user's Opinion**

As a gig worker my income has dried up and we are down to one income. We worry about the health of our senior mothers, in nursing home/assisted living communities, the lives of all seniors, poor, disabled, our nations economy and the total lack of leadership from Washington DC.

**Anonymous user's Opinion**

None except general kids safety until this crisis ends

-  **Anonymous user's Opinion**
An effective vaccine needs to be developed soon!!
-  **Anonymous user's Opinion**
Still having to go to work while this situation is happening.
-  **Anonymous user's Opinion**
Ability to buy groceries. All our local stores have been extremailly helpful - early hours for seniors.
-  **Anonymous user's Opinion**
Depression and anxiety
-  **Anonymous user's Opinion**
Our family major concern is how to stop/slowdown the spread of COVID-19. We would like to do whatever it takes to come out of this tough situation.
-  **Anonymous user's Opinion**
Keeping all of us safe. Our daughter is an adult on the autism spectrum, we're the only ones to care for her in the future so need to make certain we do all we can to be healthy and survive this.
-  **Anonymous user's Opinion**
Reduced hours at work
-  **Anonymous user's Opinion**
When will I be able to get back into work. My work has been forced to close for the foreseeable future. We are being paid for the next two weeks but beyond that may face lay offs. It is important that things return to normal as quickly as possible.
-  **Anonymous user's Opinion**
Getting food, getting hand sanitizer and other personal protection items, getting exercise, where to go for medical care if we need it
-  **Anonymous user's Opinion**
Idiots not staying inside.
-  **Anonymous user's Opinion**
Lack of testing and coherent analysis to give officials a clear understanding of the spread of the virus so it can be moderated
-  **Anonymous user's Opinion**
How work/ school will look in the near future & how long we will end up being quarantined because so many are currently still out on a regular basis. (I honestly just wish EVERYTHING would shut down for a few weeks so that this can be contained)
-  **Anonymous user's Opinion**
Uncertainty of employment
-  **Anonymous user's Opinion**
Getting back to normalcy
-  **Anonymous user's Opinion**
One person in my house is an essential work at EP Costco. Whoever he is exposed to he brings it home. My concern is that big grocery stores are not limiting numbers of customers inside. Even though signs are up in the store I notice not all are following 6feet rule I want grocery stores to provide essential workers masks and to emplement rules on numbers allowing the store. I want to be able to go to an EP grocery store and be same and limit customers inside.
-  **Anonymous user's Opinion**
None
-  **Anonymous user's Opinion**
We are fortunate, so far, job-wise.
-  **Anonymous user's Opinion**
When infections will peak
-  **Anonymous user's Opinion**
Acquire basic supplies.
-  **Anonymous user's Opinion**
Reduce community spread.
-  **Anonymous user's Opinion**

Concern #1: Both parents in our household have underlying medical conditions that are known to be risk factors for a worse outcome if we catch Covid-19. I worry about who will take care of our daughter if we're both sick and need to be hospitalized. Concern #2: job stability - right now our jobs seem stable, but will there be layoffs down the road?

Anonymous user's Opinion

How long will this last but I realize we don't know. Hard to be inside day after day.

Anonymous user's Opinion

Safety

Anonymous user's Opinion

My biggest concern is the lack of social distancing on the walking path around Staring Lake! I jog there several times a week. That path is not much more than 6 feet wide, so it is a bit difficult to maintain 6 feet of social distancing. The biggest problem is with groups of people who "don't get it". Multiple people walking together, chatting and having a good time, but they occupy most of the width of the path. Difficult for me to maintain 6 feet of distance as I get by them. They either don't understand what 6 feet of distance is, or are otherwise simply oblivious to the need. So... 1: Please post signs at the parking lots reminding people to allow 6 feet of distance when encountering others. 2: Please include an example of what 6 feet actually is. Like a 6 foot wide sign showing what that 6 feet physically is. I suspect that many younger people ("millennials", and even "middle aged") have never used a tape measure, and don't actually know how far 6 feet is.

Anonymous user's Opinion

That our household's primary earner will be laid off as a result of the employer trying to cut expenses.

Anonymous user's Opinion

Keeping my family safe in the current atmosphere and wondering if the information passed along is going to help the healthcare systems from being overwhelmed.

Anonymous user's Opinion

will there be a resurgence of Covid-19 this fall which will be worse and cause an economic collapse

Anonymous user's Opinion

I am concerned people will be selfish and hoard. I also worry that many may end up in social isolation. Worried about at-risk kids who are no longer at school

Anonymous user's Opinion

President Trump's handling of the pandemic. Hospitals being overwhelmed. Social distancing being called off prematurely.

Anonymous user's Opinion

We are sick but cannot be tested to see why we are sick. It would be good to know. This is a bad illness!

Anonymous user's Opinion

Older residents not taking the recommendations seriously & negating the reason that shelter-in-place exists.

Anonymous user's Opinion

Staying healthy and employment status.

Anonymous user's Opinion

may need to financially assist extended family outside the household whose income is reduced due to Covid19 restrictions/closures

Sarah E Johnson's Opinion

Both my husband and I were recently laid off and now unable to find work bc of the virus, my husband has no unemployment benefits and mine are small we are going to run out of savings in May and have a mortgage and bills.

Anonymous user's Opinion

We have one court worker and one healthcare worker in our household. We are fortunate to not have financial concerns, though of course the risk of a deep, long recession is scary for everyone. The biggest change and challenge has been how to continue to work full schedules while also having our kids home and trying to keep them reasonably engaged in activities other than screen time.

Anonymous user's Opinion

Financial

Anonymous user's Opinion

The Federal government is showing no leadership and lack of testing means we have no end date for isolation in sight. When can the kids go back to school safely?

Anonymous user's Opinion

Work for a small business and fear reduction in hours and possible layoff. My medical is through my job which am concerned about loosing if laid off.

Anonymous user's Opinion

Maintenance of health

Anonymous user's Opinion

Lack of schooling. Trying to homeschool a child while my husband and I work full time.

Anonymous user's Opinion

-  reliability of food, utilities, emergency services
- Anonymous user's Opinion**
-  Working, kids, finances, household chores, min or no errands, food, Meal prep, lots of dishes! Need detergent,, not TP Impossible to work job at home and teach/help kids, kids bark at mom, they behave for teacher. Kid learning will be 15-20% that of class room learning. My kids checked out and began summer break - thank you for prop! School lunch lot! Video clips from teachers telling kids to help at home :)
- Anonymous user's Opinion**
-  Contracting it!

-  Loss of jobs
- Anonymous user's Opinion**
-  keeping those at risk safe (not us)
- Anonymous user's Opinion**
-  Catching the virus.
- Anonymous user's Opinion**
-  Availability of paper goods, and getting back to normal life

-  **Anonymous user's Opinion**
Community compliance
-  **Anonymous user's Opinion**
1) Trying not to catch it. 2) having enough food and toilet paper/ cleaning supplies, disinfectants.
-  **Anonymous user's Opinion**
Self awareness and taken seriously by everyone, follow the guidelines provided to help keep this virus to go bye bye eventually
-  **Anonymous user's Opinion**
Staying safe while grocery shopping, homeschooling, our children's emotional and social well-being during long periods of isolation, keeping a sense of calm and normalcy at home while being cooped up. Worrying about older family members outside of the home. The economy.
-  **Anonymous user's Opinion**
Why is the city of Eden Prairie not closing and blocking off park playgrounds? It's concerning to see large groups of UNSUPERVISED children playing on playground equipment. Neighboring cities- Edina for example- have fenced off parks to prevent use.
-  **Anonymous user's Opinion**
How to remain healthy and how to help others in our community.
-  **Anonymous user's Opinion**
That we will get sick or cause someone else to get sick. Uncertainty about my husband's job. Extra workload responsibilities in my job (although I don't think I'm considered "essential," I can do my job from home and there are extra responsibilities related to COVID-19, which is very stressful).
-  **Anonymous user's Opinion**
Restricted travel (usually travel 50% for work) and required to work from home vs office
-  **Anonymous user's Opinion**
Retired.
-  **Anonymous user's Opinion**
*The federal administration is too concerned with an economic loss to care about potential loss of lives. *Misinformation coming from Mr. Trump is misleading and will ultimately be significantly detrimental to society.
-  **Anonymous user's Opinion**
Health of loved ones (outside our house) who are at risk due to age, previous and/or present illnesses.
-  **Anonymous user's Opinion**
Everyone doing the right thing. Social distancing, no unnecessary trips, plan ahead so as to minimize the number of trips needed.
-  **Anonymous user's Opinion**
1) exposure/illness. 2) financial ruin, job loss, recession/depression. 3) White House failure to bailout citizens versus corporations.
-  **Anonymous user's Opinion**
Unnecessary hype and the havoc wreaked by panic.
-  **Anonymous user's Opinion**
Availability of grocery and household items
-  **Anonymous user's Opinion**
Being forced to stay at home with a very low risk in our community of catching the virus.
-  **Anonymous user's Opinion**
getting staples and regular supplies. We also have a newborn in our home and getting out is difficult
-  **Anonymous user's Opinion**
Keeping the kids entertained
-  **Anonymous user's Opinion**
I work in the gaming industry and my mother (whom I live with) is retired so she only relies on her retirement and my income as I contribute to monthly expenses by paying a small amount per month for rent. Our biggest concern as a mother/daughter family (my father passed away in 12/17) is that we do not have a savings fund to tap into during these times where my income has been drastically reduced. I only get paid minimum wage by the company. The reason my take-home pay usually reflects way more than minimum wage is that the card club I work in is individually tip based. This means whatever a guest tips me, ONLY goes to me vs. another gaming establishment in the area that pools tips and divides the total amount of tips amongst all table games employees who worked that day. For this reason, the pay being provided by my company in response to the pandemic makes managing family/my finances unmanageable because they did not include tips in the initial 14 days that my company advised they were providing for employees. If the stimulus bill allows for companies to continue paying their employees due to COVID-19, this will not be a favorable option because of a big portion of my income not eligible for consideration of pay. This brings me to my next point. Could I go work for another industry that is tip based that is still in working order? Yes. Do I want to? No, because I am an Asian American. I would sign up to provide delivery services for the community in a heartbeat but with recent stories in national news indicating that there have been acts of violence towards other Asian American individuals, I can't help but to be fearful of the actions of others in this time where fear can drive an individual to act nothing like themselves. I wish I could say that this is just naive thinking on my part but these ignorant responses to Asian Americans in surrounding communities are happening every day. I have multiple coworkers who are also Asian American who have been ridiculed in public, being told "we're trying to get your kind out of here" and "get out of here". This makes me think to myself, if I sign up to be a delivery driver for DoorDash or Instacart, what happens if I deliver to the wrong

house at the wrong time and I get attacked while walking away from a no-contact delivery?! It may be a silly concern, but it is a big concern when my regular, full-time financial situation is now closed until May 1st following the governor's executive order 20-18. My last concern is the mental health of my mother. She suffers from rheumatoid arthritis, neuropathy, and struggles with depression. These times have brought out a sad mood MUCH more frequently. I check in with her every day but as her daughter, I'm sure she feels as though she doesn't want to worry me or add to my own stressors as a result of this crisis.

Anonymous user's Opinion

Getting sick and not have room in a hospital

Anonymous user's Opinion

My spouse has hypertension and is 71. Worry bif he contracts covid 19

Anonymous user's Opinion

Making sure family members not living in our home, as well as us here, are safe and informed. Dealing with anxiety.

Anonymous user's Opinion

Not knowing what to expect in near future and the direction we are going to take.

Anonymous user's Opinion

Limiting exposed so we can see grandparents

Anonymous user's Opinion

Try to stay health (and away from hospitals), keep my families minds and bodies active, and trying to find out how I can put hours in from home (I'm a para at a school in EP). Stay healthy everyone.

Anonymous user's Opinion

The mental health of my kids having to be isolated and missing out on much. School, how my daughter is going to be able to distance learn in classes that require "working in the field" or lab work. People going crazy, spikes in crime & the safety of my family in that case, and economy going bust.

Anonymous user's Opinion

getting the message out to isolate

Anonymous user's Opinion

Reducing the amount of anger I feel toward the higher leaders of our country and their lack of being able to share actual, decent, honest information. Anxious about maintaining my kids' discipline to complete the schoolwork assigned and doing so with them at the same time/different times, while maintaining my own needs. Keeping the neighbor kids from wanting to play with mine.

Anonymous user's Opinion

Needing to find work while staying healthy. I was already searching and the virus has taken the job search to a new level where employers removed roles I was being considered for and in many cases it is hard to judge what openings are real anymore (they just leave them up or repost them without hiring).

Anonymous user's Opinion

Financial.

Anonymous user's Opinion

Our son works at a local grocery store. We are concerned that we would be within the group who is infected when it is at the peak.

Anonymous user's Opinion

The government not taking this a serious as it should

Anonymous user's Opinion

That we will get sick and need hospitalization

Anonymous user's Opinion

Doesn't have any over the counter medicine for kids, if anyone sick.

Anonymous user's Opinion

We are caring for 2 grandchildren in our home so our kids can continue to work. Is that OK? We are both over 60.

Anonymous user's Opinion

Having two kids at home when both parents trying to work from home

Anonymous user's Opinion

We have no income at the moment due to shut downs across the country.

Anonymous user's Opinion

Online school and supplying groceries

Anonymous user's Opinion

Getting people to follow guidelines, economy,

-  **Anonymous user's Opinion**
That not everyone is obeying the rules of social distancing.
-  **Anonymous user's Opinion**
Potential loss of job. I am retired and my husband works from home for a company that sells cyber security software. The longer the stay at home orders remain in effect, the more concerned I become that he will lose his job and my retirement savings have been severely impacted by the market conditions.
-  **Anonymous user's Opinion**
Contracting and succumbing to the virus
-  **Anonymous user's Opinion**
Staying healthy and helping to flatten the curve. We are more concerned for extended family that are at higher risk than we are for ourselves.
-  **Anonymous user's Opinion**
Impact to children not being in school, especially my 12th grader and graduation. Our health not being able to go out and exercise adequately since my kids play sports or need to lift weights, etc
-  **Anonymous user's Opinion**
I'm self employed with NO income. MNSure difficult (but nice) to get a solution from. Very isolated. Blue. No money leads to other problems. Hard to feel productive when out of work and all by yourself. I worry about people since I'm resilient and struggling. Have a mom not allowed out of her senior apt and she's turning 88. How do I support her emotionally when I can't see her. Phone is nice, and she does FaceTime, but that's not the same.
-  **Anonymous user's Opinion**
Stock market rebounding
-  **Anonymous user's Opinion**
Balancing Homeschooling/e-learning, childcare, and working remotely.
-  **Anonymous user's Opinion**
having necessary supplies for cleaning, sanitizing plus toilet paper
-  **Anonymous user's Opinion**
Paying rent
-  **Anonymous user's Opinion**
That everyone else is social distancing and helping the elderly and high risk. There are people out there who cannot afford to hoard and live pay check to pay check
-  **Anonymous user's Opinion**
How can I most effectively help my community? I personally feel safe and secure but I don't know how to help.
-  **Anonymous user's Opinion**
The guidelines for "staying at home" are fuzzy. For example: why are restaurants open for takeout? That increases potential exposure. Another example: parents being told to stay home but daycares are open for NON-essential workers. I completely understand why they're open for needed workers. But if a parent is working from home, should they be allowed to send their kids to daycare? (I ask this as someone with a child IN daycare. it's hard to know where to draw the line when it isn't forced.)
-  **Anonymous user's Opinion**
That the two high-risk individuals coming in contact with the virus even though we have been sheltering in place for the last three weeks. Having groceries and supplies delivered but worry about the delivery person being infected and trying to take as many precautions as possible. Also only went out once to get Rx's @ Walgreens. We are worried about cross-contamination from cardboard, plastic, etc. and trying to sanitize everything the best way we can. We also see many people on our street and in the nearby part getting in close contact with each other - kids, young adults, and parents. Adults not taking this seriously is also a main concern. We are also worried about others in our community and would like to more about ways we could help them, if possible.
-  **Anonymous user's Opinion**
There is a Haalal market on Anerson Lakes road and Chestnut Dr. who has 10 + cars there especially on the weekend. Are they even aware COVID-19? Many of the woman work at retailers in our area. Are they aware how they should wash their hands?
-  **Anonymous user's Opinion**
Wish 3M's PPE production can meet medicare and public needs soon.
-  **Anonymous user's Opinion**
Childcare is a concern with two people working and the little eagles program being shuttered. Some may call it preschool, but we call it daycare as well.
-  **Anonymous user's Opinion**
I live in a Condo unit with people who are in the 'higher risk' category (elderly) and having traveled quite a bit for my work (I'm only 38), I am afraid of being one of those 'asymptomatic carriers' since there doesn't seem to be good guidance on how long Coronavirus can actually survive in and outside of the body. I have taken precautions and am distancing myself from seeing them, but if I was infected during my travels, I do not know if I could have contaminated a surface or something.
-  **Anonymous user's Opinion**
I am concerned that the community does not understand social distancing. As mentioned above, young teens were out at Round Lake not within 6 ft of each other (actually huddled in a circle) at the skateboard section. And not just three kids - at least 15 kids. What is the point of all of the measures if people don't listen.

-  **Anonymous user's Opinion**
This will drag out too long unnecessarily affecting a huge number of families' livelihoods for a small number of people who are threatened by a virus with a .001% fatality rate.
-  **Anonymous user's Opinion**
Effect of closures on businesses that will effect their ability to make future purchases (business to business sales) that directly effect our income.
-  **Anonymous user's Opinion**
My workload is fine and working at home is going well. But I am single and feel so isolated and lonely at times. Amazing how much I miss being able to get out and about!
-  **Anonymous user's Opinion**
Make people less panicking
-  **Anonymous user's Opinion**
Industry heavily dependent on events (festivals, sporting events, etc) ALL of which are canceled.
-  **Anonymous user's Opinion**
1. Continued income from Social Security and MetLife (for long-term disability). 2. That I stay healthy. 3. That I can get basic necessities when I need them. 4. If this goes on for much longer, that utilities and infrastructure remain active, sufficient and in place
-  **Anonymous user's Opinion**
Hit on sales commissions will likely occur. But we are thankful for our jobs and flexibility to keep working during this time even with the kids at home. We feel grateful to have family time despite the challenges during this period of uncertainty
-  **Anonymous user's Opinion**
Biggest concern is for everyone, of all ages, to observe the restrictions currently given by the State government, particularly maintaining social distance when there is the need to go to the allowed locations and, otherwise, to stay at home.
-  **Jack Lin's Opinion**
Due to culture difference, we are afraid to wear masks in public even we are health. Since people could carry virus without symptoms. I hope mayor can order everyone to wear masks in the places that people could have close contact (ex. Supermarket, bank, library, pharmacy and etc)
-  **Anonymous user's Opinion**
The primary fiscal responsibility falls on my husband and I, we are self employed. Before this started, my father's cancer got worse and my husband had an accident. We were just starting to get to the point of figuring out life again when all this started. Now we don't know what we are going to do since both of us primarily work the construction field.
-  **Anonymous user's Opinion**
Working in the retail field and coming in contact with so many individuals.
-  **Anonymous user's Opinion**
How to adequately support neighbors/friends while we are going through the uncertainty.
-  **Anonymous user's Opinion**
Financial and keeping me and my mom (my mom especially as she is 73 wit BOTH lung and heart issues)
-  **Anonymous user's Opinion**
Not wanting to get sick, how to properly take care of sick family member and where to go and what to do if you do
-  **Anonymous user's Opinion**
Groceries, pantry and household items - always out to stock at store.
-  **Anonymous user's Opinion**
Bringing the virus home and it killing my husband.
-  **Anonymous user's Opinion**
Two of us are working in what our employers determined are critical sector, however management isn't meeting with the customers who are potentially putting us at risk.
-  **Juan Salvador Canales's Opinion**
Aislarian. Mobility restriction
-  **Anonymous user's Opinion**
Staying healthy and safe. Really concerned also for our healthcare workers and hospitals, etc. Would like to be sure that they are equipped with what they need.
-  **Anonymous user's Opinion**
Community transmission.
- Anonymous user's Opinion**

 All family (I live alone) are essential workers and deal with others daily. Our risk is higher and that causes stress and affects my sleep. I work at a grocery store and we are overwhelmed with online orders and are working 9-10 hrs a day. People don't need to visit the grocery store or target every day.

 **Anonymous user's Opinion**

Other family members reside outside MN - at least 4- Immediate family members reside outside MN at least 5-15 hours away by car. 5-15 hrs away by car

 **Anonymous user's Opinion**

Access to necessary supplies such as toilet paper, cleaner

 **Anonymous user's Opinion**

To not get it.

 **Anonymous user's Opinion**

The spread of the virus to us and our family and friends.

 **Anonymous user's Opinion**

Living close to doctors that are treating it. Hospitals not being able to treat us if we get it. Social fears for an extroverted family that this will NEVER END. The general fears, I think.

 **Anonymous user's Opinion**

I go out to get groceries once in 2 weeks. I use gloves and face mask to avoid infections. But it is surprising to see how many people don't use any kind of protection. I realize the problem is that they can't find supplies for these products. If the city can procure and distribute/sell some essential things such as face masks, gloves & hand sanitizers, it helps limiting the spread. These items can be sold outside a store so people entering the store can use them.

 **Anonymous user's Opinion**

Mostly inadequate internet. Starting this week, we have one college student taking classes remotely, one high school student working on coursework, and two adults who are required to work from home. Have increased our internet speed, but still not functioning well enough at times for one of us and others it's fine for all four of us. Unpredictability is a challenge!

 **Anonymous user's Opinion**

Hi number of people at grocery stores. Being asked to work at a business building that is calling themselves an "essential" business when they may not be.

 **Anonymous user's Opinion**

I am an essential health care provider and I fear bringing this disease to my family. I am working so much that my kids do not have the supervision needed to do online education.

 **Anonymous user's Opinion**

Trying to keep kids active, entertained and learning while working full-time.

 **Anonymous user's Opinion**

Making sure we do everything to help stop it.

 **Anonymous user's Opinion**

Nothing serious. Just wanting routine back.

 **Anonymous user's Opinion**

Lack of testing for people with mild symptoms, lack of any database for them to self-report, lack of information on the 80% available for future medical and gov't planning, lack of information about wearing surgical (even homemade) to help PREVENT people in that 80% from unknowingly infecting others...as my wife was infected.

 **Anonymous user's Opinion**

Staying healthy!

 **Anonymous user's Opinion**

Our neighbors

 **Anonymous user's Opinion**

Getting sick.

 **Anonymous user's Opinion**

continuing to manage full-time work schedules with small children home during the day. Staying safe and healthy.

 **Anonymous user's Opinion**

1) Staying healthy; 2) Being able to make money to buy essentials; 3) Being able to pay bills.

 **Anonymous user's Opinion**

I feel confident in our city government and have no big concern. My husband and I agree that EP should be in a STAY home except for necessities. Social Distancing is key!

 **Anonymous user's Opinion**

1) Can we financially weather the storm with near-zero-income for an unknown number of weeks or months, with neither one of us getting sick or dying from Covid-19? 2) Will national grocery supply chains break down, leaving us with no source of food? 3) Obtaining a new job: I am nearly 60 and unlikely to be able to find an open business with a safe job with the rapidly-rising national (soon to be local)

infections. Working a public-facing job at a grocery store is a possibility, but growing more unsafe; the only jobs currently more dangerous are in patient-facing health care or EMS personnel.

Anonymous user's Opinion

We live in a densely populated neighborhood (Hennepin Village), and many of the children are still playing together in close contact with one another in relatively large groups. To whom should we report such activity ?

Anonymous user's Opinion

Not having enough supplies and concerned about paying rent. Don't want to be evicted because we can't pay for rent.

Anonymous user's Opinion

Having to go out in public to get food. Instacart no longer viable even to pick up at store, forcing me to go out.

Anonymous user's Opinion

People who are not restricting their activity

Anonymous user's Opinion

getting grocery delivery to our house in a timely manner. We don't leave our house, and are afraid that we will need to go out to go grocery shopping because the services are so far backed up.

Anonymous user's Opinion

We have ZERO "people in your household work for pay" (not an option in question 11). Both are retired, but typically work near full-time "pro-bono" for critical charities. Lots more work through this, and much more difficult to perform. Biggest concern is not the COVID-19 itself, but the state of the economy going forward. Second biggest is the impact of COVID-19 worldwide, especially in India, Africa, and South America, where they lack even a tiny fraction of the health care and supplies that we are in a false panic over in the US.

Anonymous user's Opinion

I live alone and after being by myself day after day after day it gets a little much. I'm looking forward to nice weather whereby I can find a place by myself to go out and walk. When I mailed some things the other day at an outdoor mail box two men walked by me and almost brushed up against me. They paid no attention to giving me any personal space. Some people just don't get it. I also went to Cub foods in Chanhassen at 6 a.m. the other day because senior time is from 6-7 a.m. It is still pitch black out at that hour and was only starting to get light at 7 a.m. that day. Many seniors don't drive at night or at 6 a.m. when it is still dark out. Also most don't get up at 5:30 a.m. to go grocery shopping and that includes me. When I got there 98% of the carts were still piled up outside and only a very few had been brought in so carts were not available nor were any wipes. I only wanted a few items that I could not find on their website but that I knew they had so it was a quick visit. While there though I thought I would also pick up some skim milk and some cottage cheese. These shelves were empty because they had not yet been stocked. Lastly there was only one self check out station open which looked like it had not been cleaned for quite a while. The 6-7 grocery hour for seniors is not reasonable. I was reading some things on line and this apparently is something they are doing across the country. Many people in other states who do not own a car and have to take a bus complained that the buses do not run yet at that hour. The grocery stores maybe think they are doing something special for seniors but it basically is only an advertising gimmick because it is not reasonable and very few seniors are going to be able to do it. I saw only 5 seniors in the store that morning (I counted). The rest were the people stocking the shelves who are not very anxious to move out of the way when you want an item from the space they are working in.

Anonymous user's Opinion

Staying healthy and the economy.

Anonymous user's Opinion

Essential supplies, stress, and anxiety,

Anonymous user's Opinion

Proper sanitization, separation plan if one of us get's sick

Anonymous user's Opinion

We are snow birds still in Arizona and want to get back to MN. We will wait until this settles down. We will most likely sleep in the car for 2 nights and pack our own food for the trip back.

Anonymous user's Opinion

Media inciting a state of panic. Sacrificing the future of millions of young people (e.g., teens-30s) by devastating the economy to save a small percent of old sick people in nursing homes. Past pandemics were WAY worse than this is and all this hysteria never happened. The species is more important than the individual - and the young are important, not the old. The cure can't be worse than the problem. BTW, I am 51 (not young)

Anonymous user's Opinion

The unknowns and uncertainty

Anonymous user's Opinion

Losing our small business and our primary means of supporting our family.

Anonymous user's Opinion

Possible reduction in pay at work, keeping up with bills, finding household supplies when store shelves are consistently empty.

Anonymous user's Opinion

Taking care of ourselves.

Anonymous user's Opinion

When we can get back to a normal life and if we will be able to pay our bills.

Anonymous user's Opinion

Not getting sick ... and hoping for the best!

**Anonymous user's Opinion**

How long will this go on? Why can't I submit without logging in?????

**Anonymous user's Opinion**

People out and about not following protocols. I saw a woman and child on playground equipment yesterday.

**Anonymous user's Opinion**

One adult in dental field and unable to work due to safety concerns. Our biggest concern is being very safe and as little contact with others as possible. So grocery runs are our biggest concern and we do our very best with protection when doing so.

**Anonymous user's Opinion**

Do not want to get disease because of negative outcomes for people our age; worried about grown daughter and her friends, family members who aren't necessarily being as careful as they should be, etc.; worried about Dad who lives in EP and just turned 90; worried about not getting exercise because usual walking paths and trails are too crowded for us to use; concerned about possible Great Depression 2 - hope City of EP is looking at the economic future with decrease in tax revenue, etc.!

**Anonymous user's Opinion**

None that everyone else doesn't have. BTW, I'm reassured knowing that Eden Prairie and Minnesota governments are top-notch. Thanks for your hard work!

**Anonymous user's Opinion**

availability of ICU care in case fall sick (have highly elevated risk factors due to age and pre-existing conditions)
