ADMINISTRATIVE REVIEW PROCESS

1. Planning Department reviews Telecommunications Land Use Applications as part of the Building Permit review. Please ensure Land Use Application is included with submission for Building Permit.
2. Building Permit will not be approved until Land Use review is complete and payment is received.
3. Planning Department staff will upload approved Telecommunications Land Use permit into ProjectDox file once review is complete.
4. If application is complete, you will receive the approved Telecommunications Land Use permit within 15 business days. If application is incomplete a letter identifying items that will need to be submitted for a complete application package, will be emailed to you.

SUBMISSION REQUIREMENTS FOR A NEW TRANSMISSION TOWER

1. Legal description of property.
2. The location of all existing towers within one mile of the location of the proposed new tower, together with the distances between the existing towers and the proposed tower.
3. A certificate of survey, to scale, showing the location of the tower and tower setbacks from property lines. Location of any ground mounted, ground based telecommunication equipment and/or, accessory structures with setbacks to property lines. NOTE: **(A site plan for co-location sites not required unless otherwise directed by City Staff.)**
4. Description of the tower, including its height, size of base, configuration, design, number of antennas to be attached to the tower, potential for additional antennas, color and camouflage treatment and lighting, if any, and materials out of which the tower will be constructed.
5. Description of any ground mounted equipment and or accessory structures including size, dimensions, and materials of the equipment and/or accessory structures planned. Provide a screening plan for ground based telecommunication equipment located on private property according to City Code Chapter 11, Section 11.03, and screening plan for ground based equipment in public right of way City Code Chapter 11, Section 11.06.

6. A certificate by a qualified registered professional engineer in such form as approved by the City Manager or his designee that the applicant's commercial wireless telecommunications services equipment cannot be accommodated on an existing tower in accordance with City Code, Chapter 11, Section 11.06 and a certificate by a qualified registered professional engineer selected or approved by the City Manager or his designee that the commercial wireless telecommunications services to be accommodated on the proposed tower or increase in size or capacity of an existing tower will not interfere with public safety wireless telecommunications.
7. The application package shall be accompanied by payment of such fees as provided by City Council resolution. Fees shall include reimbursement to City of its costs, including those incurred for consulting and technical advice relating to the proposed tower.
8. Color propagation maps showing area of coverage, that is, current coverage and proposed coverage.
9. Submit an "Antenna License Deposit Agreement" if antenna or tower located on City owned property.
